EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dawn Hayes on August 18, 2004.

The claims were amended as shown in the attachment to this paper containing the heading "Listing of Claims".

2. The following is an examiner's statement of reasons for allowance: Application serial no. 10/023,869 is being allowed since none of the prior art of record teaches or fairly suggests a composition containing one or more than one synthetic substance (i.e. one of the dye materials recited in claim 70) that mimics two or more than two analytes in a sample, wherein the sample is one of plasma, serum, synovial fluid, cerebrospinal fluid, urine, mucus, lymphatic fluid, feces, semen and any combination thereof, but not whole blood since the prior art references to Campbell et al (EP 132, 399) and CA 2,169,803 teach of a composition containing dyes that mimic the absorbance spectrum found in whole blood.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
